Understanding Mergers and Acquisitions (M&A)

Mergers and acquisitions are two fundamental components of corporate restructuring, often used interchangeably but fundamentally distinct in their execution and implications.

What Are Mergers?

A merger occurs when two companies agree to combine their operations into a single entity, often to achieve synergies, expand market reach, or consolidate resources. Mergers can be classified as:

- Vertical Mergers: Between companies at different stages of the supply chain, e.g., a manufacturer acquiring a supplier.
- Conglomerate Mergers: Between unrelated businesses to diversify portfolios.

What Are Acquisitions?

An acquisition involves one company purchasing controlling interest in another company, which may continue to operate as a separate entity or be absorbed into the parent company. Acquisitions can be friendly or hostile, depending on the target company's willingness.
